NOTICE.

Never in the 62 years of the history of this concern have we ever shipped better stock than we now have on hand with which to fill your orders and you are assured of the best and most careful attention.

The stock offered herein has been carefully grown, and is all young and thrifty, and will be properly dug and graded to the highest standard. We also desire to call special attention to the extent and completeness of our stock, both in Fruit and Ornamental departments.

With our large storage cellars and packing houses, and system of waterworks, distributing water to all parts of our packing grounds, we feel that our facilities for the careful and proper handling of nursery stock are very complete. Our nurseries have been inspected by the State Entomologist, and his certificate will be attached to all shipments.

Our shipping facilities are unexcelled. Bloomington being an important railroad center, we are able to forward promptly to all sections. With the Illinois Central R. R., Chicago & Alton R. R., Lake Erie & Western R. R., the Illinois Traction System, and the C., C. & St. L. R. R. (Big Four), and their branches, we have direct communication with Chicago, St. Louis, Cincinnati, Kansas City, Indianapolis, Dubuque, Cairo and Lafayette by daily freight trains without transfer. On account of our usual facilities we are also enabled to obtain very low rates to all points.
